About us

The Nordic Association of Electricity Traders (NAET) is a non-profit organization committed to strengthening and improving the Nordic power market. Founded in 1996 and currently representing more than 40 member companies like power producers, distributors, industrial players and financial institutions.

Nr. 3-96 STATKRAFT

Sydkraftkjøpet pet en langsiktig investering

Statkrafts kjøp av 5,1 prosent av aksjene i Sydkraft er en langsiktig investering. Sydkrafts administrerende direktør Gøran Ahlstrøm sier at selskapet vil utvikle sitt samarbeid i framtiden. Nå etableres også Statkraft Sverige AB – som et 100 prosent eiet datterselskap av Statkraft.

SIDE 6, 7 OG 10

Fastkraft til Linella-rullen

Den velkjente Linella-rullen blir laget hos Skjærdalens Brug, på idylliske Tyristrand, litt syd for Hønefoss. Denne tradisjonsrike bedriften kjøper strøm fra Statkraft og det lokale energiverk, men også olje – alt ettersom prisene på energikildene varierer.

Foreningens hovedoppgave er å ivareta og styrke den bilaterale handel i det nordiske kraftmarkedet, sier Finn Bjørn Ruyter i Hydro Energi, foreningens første leder.

Total Cleared GWh

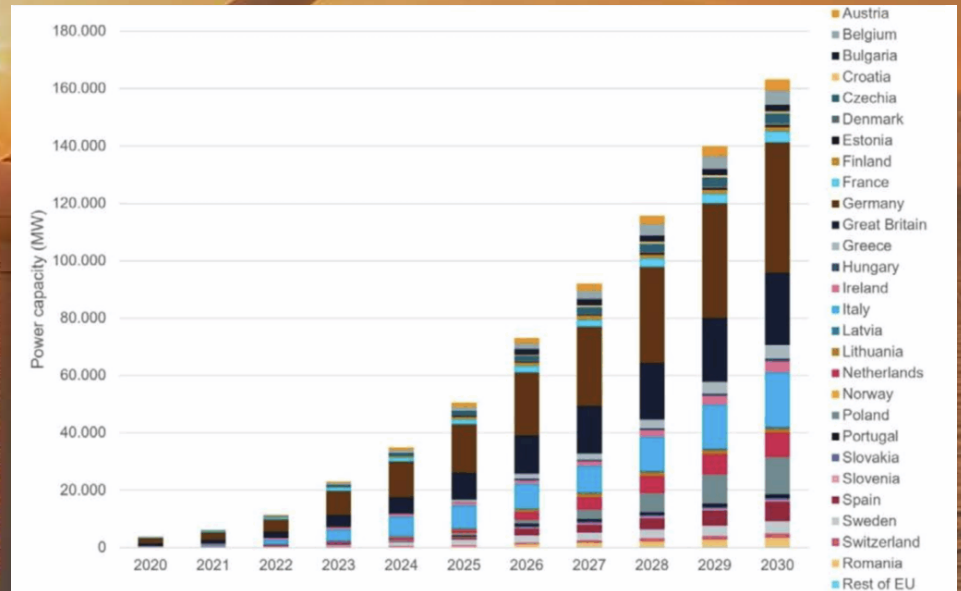

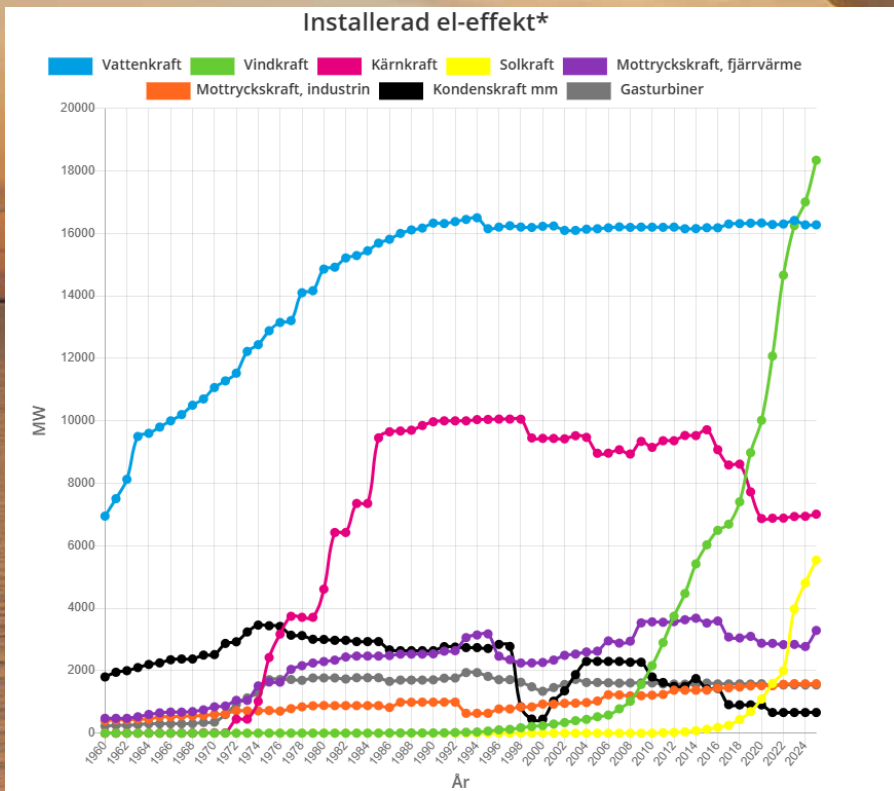

Who takes the ball?

- **Why is Nasdaq unable to bring in more liquidity?**
- **Lack of confidence in the market?**
- **Too difficult (a lot of "hazel")?**
- **Is no one interested in trading?**
- **Is someone ready to take over?**

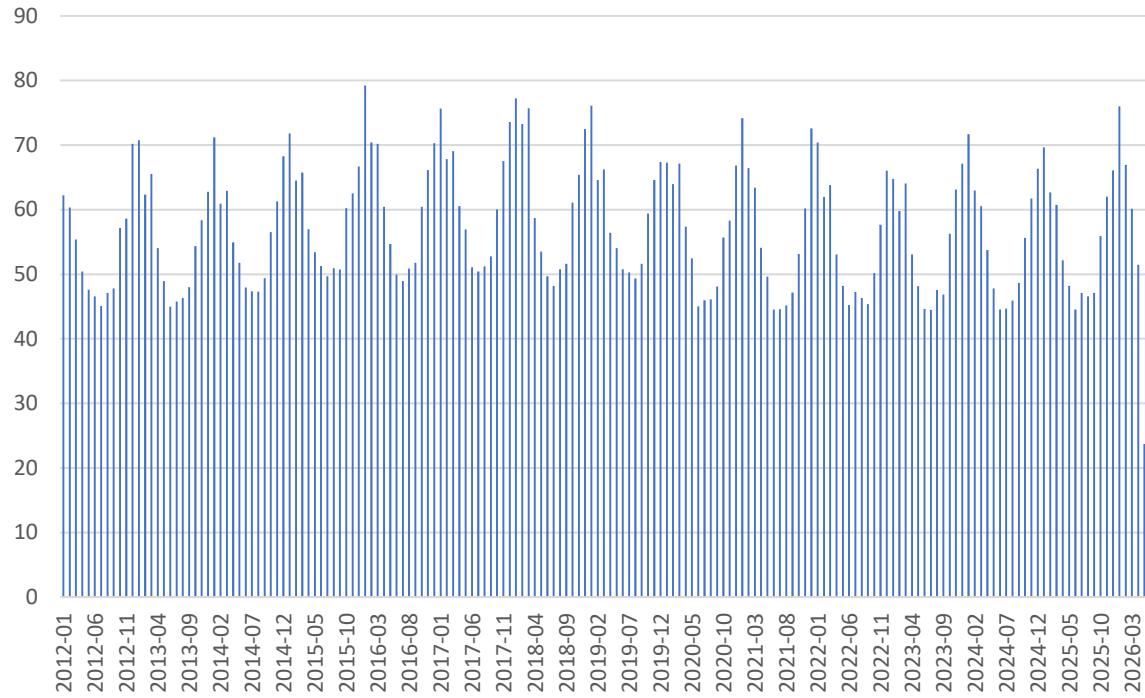

Bananas: Nordic firms face hedging challenges ?

Nordic power traders are finding it increasingly difficult to hedge their future price exposure due to widening area price differences, with one market participant joking there is a stronger link with the cost of bananas than to the Nordic system price.
