

# Obsolete

Rulebook changes – June 2016

# Linking of purchase and sales blocks

Linking purchase Block Orders and sales Block Orders together in the same Block Order Family

▶ Requires amendment to definition of Linked Block Order

▶ Trading Appendix 1 Definitions

# Obsolete

▶ Current wording:

- Linked Block Order means any Block Order which is designated as “linked” in the Trading System, the activation of which is subject to Section 4.3.3 of the Elspot Market Regulations. ~~Sales and purchase blocks cannot be linked together.~~

▶ Last sentence to be removed, as indicated

# Number of price steps possible

- ▶ Currently 64 price steps per hour are allowed in a Single Hourly Order (including min and max price)
- ▶ This will be changed to 200 price steps per day
  - Gives the possibility of more price steps per hour
  - The daily limit of 200 price steps for Single Hourly orders is considered sufficiently wide, based on our observation of participants' use of price steps
- ▶ Requires amendment to Appendix 3 – Product Specifications
  - Section 2.1: Price Steps: The number of Price Steps is ~~64~~ 200 per day...
