

Fee Schedule

German Market

Nord Pool AS

1 Introduction

Members pay annual fees to Nord Pool and variable fees for trading. All fees are excluding VAT. Discounted rates may apply from time to time subject to applicable terms and conditions. This Fee Schedule is non-exhaustive, and products and services not set out herein may be subject to a separate fee.

See section on Notes below for explanation to notes in italic.

Settlement fee (Intraday Auctions) (e), (f)	from 01/04/2018: EUR/MWh 0.006

1.3 Notes

- a) One annual fee covers both Day-ahead Market and Intraday Market (excluding Intraday Auctions). For existing members, the annual fee is invoiced beginning of each calendar year. For new members, a share of the annual fee is invoiced on a pro rata basis from the date the member is accepted for trading with Nord Pool. The annual fee will not be refunded if a member terminates the membership agreement throughout the year or is in the notice period when the annual membership fee is invoiced. For new portfolios, a share of the annual portfolio fee is invoiced on a pro rata basis from the date the new portfolio is activated. The annual portfolio fee will not be refunded if a member terminates the portfolio throughout the year.

Currently in Germany only the Intraday Market is being offered.

- b) Companies bidding in more than one area or TSO. In this context, each country with multiple bidding zones under the same TSO (Norway, Denmark or Sweden) is considered as a single Day-ahead Market or Intraday Market area. The fee also applies to every additional internal portfolio within an area.

In respect of Intraday Auctions, one portfolio per Member is included for free in each country.

To promote the new extended trading feature and to boost liquidity, additional portfolios in the German Intraday Market (excluding Intraday Auctions) will be free of charge until 30 June 2018. The added portfolios will be kept active even after 30 June 2018, unless the member expressly asks to terminate them.

- c) ASCII FTP report fee is waived for Clients if the Client Representative is subscriber to this service.
- d) Non-recurring cost per token. First 2 are included in the annual fixed fee.
- e) There is an annual EUR 200 000 ceiling per member per country for the settlement fee.

Excluding Day-ahead market – small Participants.
